TECHNICAL RESCUE GEAR

When the call isn't structural—but still demands protection—you need gear that works with you, not against you. The Ricochet Out Front™ Technical Rescue Gear delivers dual-certified protection, reduced weight, and real-world functionality for the calls you run every day—from extrication to EMS to technical rescue operations

NFPA 1999 (EMS / PATHOGENS) CERTIFIED

NFPA 1951 (TECHNICAL RESCUE) CERTIFIED

DUAL-CERTIFIED TECHNICAL RESCUE PROTECTION

TRUSTED BY FDNY RESCUE & SQUAD UNITS

BUILT TO MOVE

- Lighter. Cooler. More mobile.
- No thermal liner
- Reinforced where it actually matters
- Less fatigue on long jobs.

IDEAL FOR ALL FIRE DEPARTMENTS

- 95%+ of calls are non-structural
- Reduces turnout wear
- More affordable. Better ROI.

ADVANCED PROTECTION

Gore® Crosstech® S/R Moisture Barrier

- Bloodborne pathogen protection
- Fluid and chemical resistance
- Breathable for long-duration wear

Durable Outer Shell Options

- Proven strength and abrasion resistance
- Flame resistance for non-structural operations
- Built to withstand real-world conditions
